NEW PROVIDENCE AMATEUR RADIO CLUB

February, 1969

AT THE FEBRUARY MEETING ... "How To Make Frequency Measurements and What To Do With Them." John Sheetz will explain and demonstrate frequency measurement techniques, both audio and RF, as applied to amateur radio and using equipment generally available to most amateurs. This is an important aspect of amateur radio ... the FCC requires that you know and control the frequencies you operate on ... and knowledge of this is necessary when taking FCC exams for higher license.

The date is February 10, at Red Cross Headquarters, Summit ... 8 p.m.

msg

ALSO AT OUR FEBRUARY MEETING ... Harry Dannals, W2TUK, our Division Director, will present a certificate attesting to NPARC's affiliation with ARRL. Harry always is a welcome guest and we will be glad to have him with us again.

msg

NPARC's AUCTION This is the date you have been waiting for ...
ON FEBRUARY 21 Friday, February 21. On that evening we will join with the Key Clickers, of Stirling, and it looks like it should be another great affair. Last year we had almost 300 in attendance and we hope for even more this year.

So gather up that equipment you are not using and bring it along ... and then you can pick up some real bargains. More details at the February meeting on February 10.

msg

DX CONTEST IS You still have time to get in on the big ARRL DX
STILL GOING ON contest. This is a four-week affair and there is still three of those weeks to go. Phone operation is on tap for this week-end - February 8 and 9; CW operations will be the order of things for the next two week-ends, February 15 - 16 and February 22 - 23.

Remember, we are in this on a Club basis, so be careful with your logs. Official log forms can be obtained from Arden Johnson, WB2GPG. Check QST for the contest details.

msg

NPARC CLUB NET IS ON 146.52 mc ... Don't forget the new club net frequency -- 146.52 mc -- and we meet every Sunday night at 9 p.m. Attendance lately has been fine, but there is always room for more. Why not get in on the fun.

NPARC's COMMITTEES New Providence Amateur Radio Club, like any other organization, has a number of standing committees and that is where the work is done and where the participation takes place. Each of these committees can use more help ... so if you see a spot where you could lend a hand, see the chairman and get on board. Here are the committees:

Membership	Arden Johnson	Field Day	Dave Griffiths
Education	Bob Latter	KP	Harold Voorhis
Auction	Dave Griffiths	Publicity	George Eastland
Incorporation	Al Hirsch	Program	John Sheetz
Assets	Andy Napolitano	Field Trips	Bob Latter

msg

PROGRAM FOR GENERAL LICENSE For all novices, or others, who want to get started on their General License, Bob Latter will run a school on Saturday afternoons. The Club has a great program to help you ... and if you are interested get in touch with Bob for the time and dates.

msg

OPENINGS FOR CD OPERATORS Both Summit and New Providence could use a few more good operators in their CD establishments. As an amateur you are already qualified and can join right in. A simple RACES form is all that is required. So why not devote a little time to this worthwhile cause. See Al Hirsch regarding the Summit operation, or Arden Johnson concerning that in New Providence.

msg

FOR FREE! Anyone want a Hi-Fi cabinet? It's full size, nicely-finished console with four compartments (about 48" X 30" X 38"). One above for tuner and preamp; one above with tilt-down door for record player; one below for records and another below for speaker or amplifier. Just out of the living room. Free for carrying away. See Al Hirsch.

msg

That's all for this time ... See you at Summit Red Cross Headquarters on Monday, February 10 - 8 p.m.

And don't forget the Auction ... Stirling, Central School gymnasium ... Friday, February 21.

msg

WELCOME ... To two new amateurs, Charles Werner, WN2IJR, and Lincoln Werner, WN2IJT. They are on the air now, so why not give them a call.
