Cable Television Features

February 11, 1980 Meeting: Our guest speaker will be Bob Dickinson, W2CCE, owner of E-COM, Berkeley Heights. Bob will acquaint us with E-COM's activities as they relate to auxiliary services, ie, data communication, carried over Cable TV (CATV) systems.

General-Technician Theory Classes Planned

Following completion of the Novice classes, NPARC will conduct classes for the FCC General or Technician regulations/theory course of study. The classes will be held on Friday evenings beginning February 15. The meeting place will be in the Summit Civil Defense Center (lower level-east side) in the Municipal Building, 512 Springfield Avenue, Summit, NJ. Sessions will start at 7:30 PM and will last approximately an hour and one-half.

Code practice will not be a feature of the training environment as the staff feels that independent study is required to build the necessary skills to become proficient with Morse code.

Those interested in further details should contact Bob Craig, W2EAL at 464-1368.

Dues Reminder

The Club Treasurer, John Sheetz (K2AGI) would like to remind all members who have not completed the necessary business transaction for 1980 dues... "Please do it". The amount is the same, \$5.00 for regular members; \$1.50 for student memberships.

Equipment Auction Scheduled For February 29

How else should you celebrate a Leap-Day? The NPARC Auction, luckily, is an annual event.

This year's auction will be held in spacious quarters at the Berkeley Heights Community Center. A convenient map and rules of the activity are included with this mailing.
