Club Callsign

John I. Sheetz, K2AGI, SK 1924 - 2005

By now we have all heard that John Sheetz, K2AGI, has become a silent key. I think I can speak for all club members in saying that we are going to miss him terribly. John was always around to help with advice or just to “chew the rag” on “.75”. And of course, he always had that part you needed from his vast collection of “stuff”. There is no way we can fill the void that has occurred with his passing. On a personal note I can say that only a ham can really appreciate a fellow ham. If we are lucky, we will come across a club where we can meet and relate with other hams. If we are really fortunate, we will come across a club like the New Providence Amateur Radio Club. And if we are blessed, we cross paths with someone like “AGI”. Our condolences to Coby and her family on his passing. John’s spirit will continue to live, on the Green Keys and in our memory.

73 John de Al Hanzl K2AL, President NPARC
