

JAN. 8

# MOUNTAIN SPARK GAPS

NEW PROVIDENCE AMATEUR RADIO CLUB

January 5, 1968

Volume 3 Number 1

## FIRST MEETING OF THE NEW YEAR! MONDAY, JANUARY 8! AND A TOP-NOTCH PROGRAM!

There is a treat in store for NPARC'ers at the Club's first meeting of 1968, on Monday, January 8 ... Lincoln School Cafeteria ... 8 p.m. Bill Ward (K2TRY) of Berkeley Heights, will explain and demonstrate some of the many things you can do with an oscilloscope. This is one of the most useful pieces of equipment you can own, but many people never do get all of the usefulness out of it. Here is your chance to learn how to improve your techniques.

Bill is particularly well-qualified for this opening program. In addition to being associated with New Jersey Bell Telephone Company, he teaches the company's after-hours electronic school.

If you would like to bring your own oscilloscope with you to the meeting, regardless of its make, age or size, please do so. You will get a chance to pick up a few pointers you may never have thought about.

We'll see you at Lincoln School Cafeteria, at 8 p.m., on Monday, January 8.

### 1968 PROGRAMS AIMED AT UP-GRADING ABILITIES

With all the recent emphasis on up-grading licenses and general improving the skills and techniques of those engaged in amateur radio, New Providence Amateur Radio Club in 1968 has planned a series of programs to do just that. This month's program, for instance, is the starter. Others throughout the year will be aimed at improving your understanding of the fundamentals of electronics, improving your operating skills, providing information on new and better methods of taking measurements and adjusting equipment, just to list a few. There are others, of course, but this will give you a little taste of what is coming up.

Plan to attend every meeting .... you'll be glad you did.
