First 1975 Meeting

Bill King, W2LTJ, our new Prexy, will discuss and illustrate how to build a super accurate crystal controlled clock - one with hands that tells time, that is. Start the new year right by being at the New Providence Library at 8 PM on Monday, January 13, to hear all about this super time piece.

From President Bill King and Your 1975 Officers

Thanks to last year's officers for a job well done!!

A Great Party!

Our annual dinner was the best ever with food and surprise acts, prizes, etc. that you wouldn't believe! Thanks to W.C. Al Hirsch, John Irwin, and everyone who had a part for a real humdinger. If you missed it, there is next year!

Club Chatter

John Sheetz sent another special New Year's picture over last weeks RTTY net. Those pictures of members' home stations at the dinner were great as were John's RTTY pictures. Did you read John Irwin's article on page 53 of January QST? What do you think about the FCC's license restructuring proposals? George Manchett has some very excellent ideas for future club programs. Reserve the weekends of Feb 1 and March 1 for the Phone section of the ARRL DX Contest and Feb 15 and March 15 for the CW section.

Education

Much of our club's success has been due to the training courses we have offered - its our biggest source of new members. We will decide on the Courses we will teach in 1975 at our next meeting, so prospective students and instructors, be sure to attend!
