

### New Officers Plan Active Year

The New Providence Amateur Radio Club is beginning the 1978 season with plans for a very active year, according to Bob Brown, W2EME, NPARC President. Serving with Bob through 1978 are John Myrick, WA2TKW, Vice President; James Brown, WB2EDO, Secretary; and John Sheetz, K2AGI, Treasurer. Ron Henderson, WA2FWH, is in charge of programs and special events.

### First Program Features WA2MOT

On January 9, the first program of the new year will feature Webb Linzmayer, WA2MOT, who will discuss the reception of RTTY messages using very sophisticated and novel mini-computer techniques which he has developed. Webb will tell of his many interesting experiences in receiving and translating messages from worldwide amateur and news service sources.

### Evening CW Ragchew Seeks Participants

John Carmain, WB2KXR, and Dick Hoagland, WA2KNB, have been holding scheduled QSO's each evening at 10:30 PM on about 21.151 MHz. Their motive is to increase code speed and operating proficiency while exchanging news of the day. Club members who would like to participate are invited to check-in and join John and Dick in a roundtable.

### Aloha From KH6JRP

Warren Stickney, formerly WB2IOJ from Summit, is working hard on additions to his new station, KH6JRP, in Hawaii. As soon as his new beam antenna is active, Warren hopes to establish regular schedules with his friends in the NPARC. Warren would like to hear from anyone interested in working him. His address is: 134 Niuiki Circle, Honolulu, HI 96821.

### Dues Due

John Sheetz, K2AGI, is anxious to get the bookkeeping chores under control early this year. Club members are asked to bring or send their 1978 dues to John during January. (The grace period is not as long as some members would like to believe.) Dues for Regular Members are \$5.00; Student Members, \$1.50.
