Field Day Planning Reaches Critical Stage

With Field Day weekend, June 24-25, just a matter of days away, Andy Stillinger, K2DKJ, Field Day Chairman issued an urgent call for helpers to make an appearance at the meeting on Monday, June 12, 1976.

Final Field Day plans are to be made at that meeting. This will be the best time to review the check lists for open items. It is important that all station managers, operators, and prospective helpers attend.

New Field Day Generator

Ralph Blass, W2AKY, announced that he has been offered a 15KVA Diesel generator for use as the main power plant in the Field Day operation. One catch--Ralph needs a volunteer to pick up and tow the generator trailer to the field day site. If a club member has a vehicle with a hitch and ball for towing this fine generator there should be no shortage of power for the weekend. The cook may even bring a toaster and waffle iron. (Electric blankets and heating pads would be considered too civilized, however.)

An emergency call for tables may be issued. Charles Hamilton has moved out-of-state and a replacement source of tables and chairs has not been identified at this writing. Would a club member please contact the Field Day Chairman if they know of a good place to obtain such equipment, eg, the INCA's.

For Sale

Heathkit SB300 Receiver--recently realigned and fully checked; asking \$150. Janel FM-1 low noise 2-meter preamp; \$15. Contact Bob Brown, W2BME.
