

The New Providence Amateur Radio Club, Inc.

It's easier to listen than you might think - to TWO METER amateur radio transmissions, that is! We'll settle on a club project antenna at our November meeting. There are a few ideas still to be discussed. Then, on to equipment for receiving TWO METER signals. This will be another BRING-SHOW-AND TELL meeting.

The date is MONDAY EVENING - NOVEMBER 10, 1969 - 8 p.m. at the American Red Cross Building, Summit, New Jersey.

If you have a simple way of hearing TWO METER signals, bring it and tell us about it. That includes Japanese VHF receivers, Japanese "transistors" as modified, converters, and transceivers adapted for TWO METERS. So let's get everybody on TWO to hear the net and to have fun. To hear, if not to talk, is better than not to have heard at all! What?

BANQUET DRAWING NEAR - DECEMBER 13, 1969 is THE NIGHT.

Don't forget to get your tickets for our Christmas Dinner. Full details in October 1969 SPARK GAP. If you mislaid it, ask Al, K2SKV for a copy. Order tickets for you (including Ex-XL'S and, or, other girls friends) and friends now - from Vail, W2WVV which will make the job easier for reservations. DO. IT NOW!

ELECTION OF OFFICERS - also NOVEMBER 10, 1969

This is your chance to throw the rascals out. Your once a year opportunity. Be sure and come out and vote for your favorite.

A NEW LICENSE COURSE? - Is there a need for one?

Thanks to Bob, W2YFM, Arden, WB2GPG, and the others who helped on the license instruction that we had a while back, several members of the Club have new amateur licenses. Bob has offered to set up a new series of courses & hopefully to start in the spring. If you would care to upgrade your own license, or know someone who would like to get an amateur license, let Bob know soon, so that he can make proper plans.

NOTE - there will be no meeting in December - the dinner takes the place of the meeting for that month.

The Old Old Timer Club runs two phone nets: Wednesday on 3.960 at 7 p.m. out of WILKS (Melrose, Mass) and same time and frequency on Thursday nights out of Brooks, Maine -KITZH. You will hear them talk to "Harold" whoever that is! Sorry - the first call is WLDPS.
