

Amateur Radio and the Law

On November 10th, Al Hirsch, K2SKV, our distinguished barrister, will lead an informal discussion on laws which affect amateurs. This will be the cheapest legal advice you will ever get, and it's worth every cent of it! Al will cover such important items as ~~young laws~~ ^{young laws}, antenna towers, liability, insurance, the basis upon which our club is organized, how the FCC conducts its rule making, and how individual amateurs and clubs can make their wishes known.

It's all legal at 8 PM Monday, November 10th, at the New Providence Public Library.

Club Chatter

The auction was the best ever! The amount of equipment and the prices were unbelievable, and Bay Rowan and his helpers did a first class job. In fact, a second auction program for this year has been suggested. The New England Division ARRL Convention in Hartford was also a big success. Bob Latter, Al Hirsch, and George Hanchett were there, and Bob and Al talked to the telephone Net on 3975 Khz and Arden Johnson, former NPARC prexy, in Southfields, Michigan, as well as several 2 meter mobilerson route.
