

NEW PROVIDENCE AMATEUR RADIO CLUB

MOUNTAIN SPARK GAP

Vol. 69, No. 8

October 1969

LET'S GET EVERYBODY ON THE 2-M NET!

The 2-meter net of the N.P.A.R.C. is the big news this month. Crystals are available (see Vail, W2WV), it's not hard to get on 2M - or at least to tune into the net, and non-directional 2M antennas are easy to build. All of this to be covered at the next meeting on:

OCT. 13, 1969 at 8 P.M. - RED CROSS BLDG., SUMMIT

Suggestions on how to tune in the net, simply and inexpensively will be discussed - and several designs of suitable, easy-to-build antennas will be shown and described. Bring your pet 2M antenna (if you can break it loose and carry it) - or bring your ideas to share with the Club. If we decide on one design, then a Club building project seems in order.

NET RECORD

Harold, our unofficial statistician (who monitors the net) has provided the following record of Sunday night net participation - 1967, 4-net sessions; 1968, 49; 1969, 34; for a total of 87 sessions. Top eight rag-chewers were:

1. K2SKV - 72 nets	5. K2AGI - 51 nets
2. W2YFM - 69 "	6. W2ARL - 47 "
3. WB2GPG - 68 "	7. W2WV - 47 "
4. WB2WGM - 55 "	8. WB2OTL - 45 "

ANNUAL DINNER SET

Plans are complete for the 5th Annual Dinner of the New Providence Amateur Radio Club, Inc. It's to be bigger and better than ever for '69. Our speaker will be Barry Campbell, W2CGX, with slides/films of his year in Korea as HL9TS/HL9WQ. A fine show - non-technical for benefit of the ladies.
