IT'S FALL - TIME FOR A NEW CLUB YEAR

Summer's nealy gone and soon the cold winds, ice, and snow illl let us all know that antenna repair and installat-
ion time is here again. It's also a sign that your Club is
about to start another adventurous year of activity. We'll
start with a NEW MEMBERS NIGHT on September 14. Come and get
acquainted, thus to set the Club on its course for another
year. And bring a prospective new member - either a ham (just
waiting to be asked) or someone (maybe a CB'er) who would like
to learn more about ham radio.

FIELD DAY RESULTS

To make the evening interesting, and to show the new-
comers what the Club has been up to in the past, we'll have
a review of the 1970 Field Day and a tally of the scores.
We did real well: Congratulatiions all. Suprisingly, in an
indefatigable resurgence of ebullition in support of a mori-
bund dalliance, our contumacious CW addicts fared remarkably
well in the very face of progress.

WARM-UP FILM TO BE SHOWN

Then, prior to our usual donut and soda tete-a-tete in
the kitchen to discuss last summer's various ham activities,
we will see a sound film on an interesting new field of com-
munication technology. A prelude to high gear haming now.
