New Year of Ham Activity to start
MONDAY, SEPTEMBER 13, 1971

Another big year for the NPARC is about to begin. We will have to go some to top last year - but we will! To start things off, we have a real crowd getter for our first meeting - the ARRL film "The Ham's Wide World." This is the film (sound-color) that has been on TV a few times and which features Arthur Godfrey, K4LIB, and Barry Goldwater, K7UGA. It tells the story of Amateur Radio in a most entertaining way - a way that might even interest the ladies!

Why not bring a friend, or even the XYL, to see this film and to get acquainted with our club?

Time: 8:00 p.m.

Date: Monday, September 13, 1971

Place: American Red Cross Building
695 Springfield Avenue, Summit
