Fall Kickoff Features Heathkit Demo

September 11, 1978 marks the beginning of the new fall schedule of New Providence Amateur Radio Club. The program is one we have been waiting for--Heathkit's Fairlawn retail store is sending representatives to tell of the many new kits in the product line. This should be of interest to everyone, beginners as well as old timers, and either radio or computer buffs (probably both).

Hidden Transmitter Hunt in the Offing

The September 25th meeting will be devoted to a discussion of some of the finer points of the search for a hidden transmitter on a weekend date in October. Charlie Dinyovszky, N2AI, will review antenna design and construction which should make the hunt a technical challenge marked by strategy and intrigue.

A club picnic is planned as a finale to the quest for the hidden transmitter. (Next month's Spark Gaps will have more details, but be sure and attend the 4th Monday meeting for Charlie's tips.)

Meeting Schedule Change in October

October meetings will be held on Tuesday, October 10th and Monday, October 23rd. (The Library will be closed for Columbus Day on October 9th--hence the shift to Tuesday.) The schedule for November is Monday the 13th and Monday the 27th. The December meeting will be the Gala Holiday Dinner Party on Friday, December 8th at the William Pitt Restaurant (save the date now).

Novice License Class Starts September 22nd

Novices classes will begin on Friday, September 22nd at 7:30PM in Historic Murray Hill Square. The class meeting room is above the "Distinctive Creations" store--stairway entrance is behind the building next to the railroad tracks. Please pass this information to those who may have an interest in attending. For more information contact Bob Craig, W2EAL, (464-1368) or Bob Brown, W2EME (464-7958).

For Sale

Model 28 KSR Teletype unit with extra typing unit, 60 & 100 WPM gears, table top, loop supply. \$150 or best offer, contact Webb Linzmayer, WA2MOT, 267-1299 anytime.
